Professional Summary

Full Stack Software Engineer focused on modern, scalable, and high-performance web development. Hands-on expertise building applications with **Next.js**, **TypeScript**, **React.js**, and **Node.js**, from Design Systems to relational databases and cloud back-ends (**Supabase**, **Prisma**, **PostgreSQL**). Practical background in FinOps SaaS engineering, municipal workflow digitization, agile practices (Scrum/Kanban), test automation (**Cypress**), and payment integrations with Stripe.

Work Experience

Municipal Department of Urban Planning and Licensing (SMUL) — **Feb 2026 – Present**
Full Stack Development Intern — *São Paulo, Brazil*

- Engineered scalable web applications for municipal workflow automation with **Next.js**, **TypeScript**, **Node.js**, and **Prisma** with **NestJS**.
- Created the SMUL Design System and shared UI component library (**Storybook**, **shadcn/ui**) to eliminate code duplication.
- Digitalized municipal platforms: modernized the Subvenção 2026 system, restructured CAF, and built headless CMS architecture with **Payload CMS**.

Billink AI — **Feb 2026 – Present**
Web Developer / Full Stack — *São Paulo, Brazil*

- Engineered FinOps SaaS for AI and cloud infrastructure cost auditing using **Next.js** and **Tailwind CSS**.
- Built interactive dashboards for real-time cost savings breakdown, usage trends, and AI agent pipeline monitoring.
- Full backend integration with **Supabase** (PostgreSQL, Auth, Storage) and monetization via **Stripe API** and **AbacatePay**.

Zanthus - Results Technology — **Nov 2024 – Aug 2025**
Software Development Intern — *São Paulo, Brazil*

- Developed dynamic, accessible, and responsive user interfaces with **React.js** and CSS; authored stories in **Storybook**.
- Version control with **GitLab** and agile sprint collaboration with Kanban in **Jira**; researched **Kotlin** integration.

Selo ESG Pro Brazil — **Aug 2024 – Aug 2024**
Front-End Web Developer (Freelance) — *São Paulo, Brazil*

- Architected front-end platform with **Next.js**, **Tailwind CSS**, and **Material UI**; managed state with React Hooks and consumed REST APIs.

PicPay — **Apr 2023 – Dec 2023**
Front-End Web Developer (PicPay Invest) — *São Paulo, Brazil*

- Built financial investment interfaces with **React** and Styled Components; authored automated end-to-end test suites with **Cypress** and **Capybara**.

LionX — **Mar 2022 – Apr 2023**
Systems Analyst Assistant — *São Paulo, Brazil*

- Constructed UI components with HTML, CSS, JavaScript, and React; developed and verified cross-platform email marketing templates.

Education & Continuous Learning

UNINTER International University Center — **Jul 2025 – Dec 2027 (Expected)**
Associate Degree in Information Technology (CST) — *São Paulo, Brazil*

Federal Technological University of Paraná (UTFPR) — **Completed Jun 2026**
Web Programming Course, Computer Programming, Specific Applications — *Curitiba, Brazil*

Generation Brazil — **Jun 2024 – Sep 2024**
Full Stack JavaScript Intensive Bootcamp (React, Node.js, NestJS, MySQL) — *São Paulo, Brazil*

EF International Language Campuses — **Sep 2024 – Sep 2025**
Integrated Technical Program, English Language and Literature (Professional B2) — *São Paulo, Brazil*

Technical Skills
